A NEW BUSINESS.
One of the commendable things to occur recently was the opening of a clothing store by Mrs. C. C. Calloway at 1508 East Twelfth street. All kinds of wearing apparel for women can be found here. Mrs. Calloway says that owing to the large supply of sample clothing which she handles she is able to give to her patrons the best quality for the least amount of money. Go in and visit this splendid store and let Mrs. Calloway explain to you her excellent bargains.

he said they would be much appreciated and that he would see that they went to the men who needed them most. So if it is still you wish to send them you may do so and consign to me and I will see that they are given to men who need them.

I am now located in a new Y. M. C. A. building, the finest and best in the camp, consequently my work is very pleasant and everything is going fine with me. The "flu" was very bad here but it is over now. I worked with the men in the hospital with it but did not take it. Hope this finds you and your family well.

With very best wishes, I am

Prof. L. J. Bowler, chairman of the Executive Committee of the Inter-State Literary Society, is a Kansas City, Mo., product and is eligible to the presidency of the Society that holds its sessions December 26-27-28 at Wichita, Kas. The Citizens' Forum is fortunate indeed in that Prof. Robert G. Jackson will give a forty-five minute recital each First Sunday of the month as a part of the regular program. He will vary the entertainment in character and will draw not only on Western University and Greater Kansas City talent, but also other cities. Prof. Jackson's name attached to any program is sufficient to stamp its superiority.

National War Labor Board Ordered an Increase in Street Car Fare and Wages

Every dollar of increased fare will go to increased wages for employees; Not a cent goes to the stockholders or bondholders.

SITUATION IN MASSACHUSETTS

"When we get our wage increases, as we surely will, if we do not at the same time get a large increase in revenue from the public, then I shall report the facts to the United States district court, which has jurisdiction over me, and the result that would follow, as an inextinguishable law of nature, is that the property will be shut down. 'If I am asking Massachusetts to determine whether a 10-cent fare is better than no street car service. If no street car service is better than a 10-cent fare, the public can have what it wants, and we propose to shut down within thirty days 150 miles of track. If we are not allowed to raise the unit of fare on the balance, we propose to shut down most of the balance. 'If I do not give the increase of wages the men will not work, and I do not blame them. I propose to put it up to the community that the increase shall be borne by the community.'—Statement of Wallace B. Donham, receiver for Bay State Railway System.

THE WAR LABOR BOARD SAYS:

In applying to the Federal Court to take complete jurisdiction over the matter of increased wages and fares the Railways Company is making an effort to comply with the findings of the War Labor Board.

The Company has not ASKED for an 8-cent fare, but says in its petition that IF the War Board's order is to be carried out a 7½ or an 8-cent fare WILL BE NECESSARY TO MEET THE \$1,500,000 INCREASE IN WAGES ALONE.

The question is between the public and the men. The Company is NOT seeking additional revenue for itself. It expressly declares it is NOT seeking dividends. It only asserts that the revenue must be sufficient to meet the actual cost of operation, otherwise the business cannot continue.

"The Kansas City Railways Company made a showing to the Board as to its financial condition, based on an official audit. 'The representatives of the employees conceded its substantial accuracy, and the Board extended full opportunity to the representatives of the municipality of Kansas City, Mo., to present any countervailing proof or argument, which was declined.

"The Board finds the Company is financially unable, and its general financial condition will not permit it to pay the wages herein awarded to its employees.

"The board finds that in order to enable it to put this award into effect the Company should be permitted to make such charges for its service as will produce sufficient income to pay the wages herein specified.

"This award is MADE CONDITIONAL UPON THE GRANTING OF AN INCREASE IN THE RATE OF FARE TO BE CHARGED PER PASSENGER BY THE COMPANY, and subject to the financial ability of the Company to meet the requirements of the award.

"The increase in fares is for the period of the war. 'The increase is directed solely because of the immediate pressure for money receipts now to keep the street railways running so that they may meet the local and national demand for their services, and pay the wages to their employees as herein awarded.

"In strict justice, the public must pay an adequate war compensation for a service which cannot be rendered except at war prices."

SO IT MAY BE SEEN THAT:

The question is between the public and the men. Every dollar of increased fare will go to increased wages for employees. Not a cent goes to stockholders or bondholders.
